Subject: Questionnaire "thank you"

Dear Mr. Bauer,

I've just completed the report on experience with Transformer 22.
Since I have this Transformer in my apartment, suddenly my Heart rhythmus disorder and heart palpitations have stopped.

Before I had the Transformer actually I felt at heart, when Wi-Fi was turned on and when it was off.

Also around us there are 9 WIFI-networks. That's why I bought the T-22-100.
I am very glad about this effect.

Sincerely yours

Christine Blum
